MEXICO.

A New Revolutionary Scheme.

It is asserted by those, who profess to know, that a large proportion of the people of Mexico is dissatisfied with the Diaz Government; and that this dissatisfaction has taken the shape of an organized revolutionary government. An agent of the revolutionary party is now in San Francisco endeavoring to negotiate for material aid to further their schemes for the overthrow of Diaz. The agent offers the capitalists, in return for their aid, the following franchises: First authority to organize the National Bank of Mexico, the notes of which are to be legal tender for all debts, public and private; 2nd Franchises for railways and telegraphs throughout Mexico, and subsidies sufficient for their construction; 3rd Abolition of all duties on goods imported from the United States into Mexico. The land rights of immigrants are guaranteed and religious liberty assured.

There seems to be no doubt but that many ambitious men in Mexico are concerned in the movement, and some of the wealthiest capitalists of the Pacific coast are reported to be now examining it with a view to engage in the enterprise if it promises to be a success. By a private letter from a gentleman in Boston, it is learned that the same scheme has been submitted to capitalists who own the Atchafalaya, Toxco and Santa Fe Railroad. These gentlemen have already sent an agent to Mexico to endeavor to obtain from Diaz the same franchises, so far as their company is concerned, and failing in that, it is said they have promised to give the scheme their earnest attention.

Justice, Bateman & Co. 122 South Front Street Philadelphia, under date of Nov. 10, give quotations of New Mexico wool ranging all the way from 14 to 30 cts according to quality. They say:

Colorado, New Mexico and Arizona Wools have sold on arrival, all through the season. The market is bare of this class of stock, and the demand still good. Some exceptionally handsome medium clips will bring the extreme quotations.

It is reported that Barnum is looking for a greenbacker to exhibit in his great show but that his agents throughout the country report that the species is extinct and it is impossible to obtain a specimen.—Ex.

It strikes us that Senator Thurman, of Ohio, would make an excellent fossil specimen.

Since Cetewayo was captured the English have been busy parcelling out his Hottentots among a large number of new chiefs none of whom will be dangerous should they feel like going to war.

The propositions to abolish slavery in Cuba are still under discussion in Madrid. The trouble appears to be that the slave owners want all the advantages of the change without any of its disadvantages.

The east side is not far away for an addition. At Denver recently, A. Grant of Cincinnati and A. F. Wilson bought a thousand acre tract of land in the sand hills forty miles north of Denver, in another county which was platted out and recorded as North Denver. They established themselves in St. Louis and advertised their lands in over 800 papers. In eight days they received a perfect avalanche of letters. The fraud was denounced by the local papers and the post master was ordered by the department to deliver no registered letters and pay no money orders to Grant.

Attempts are making in San Francisco to get up an insurrection in Old Mexico. Of course all such efforts injure the A. T. and S. F. road and aid in keeping it away from Guaymas, and are probably intended for that.

It will cost nearly \$3,000,000 to have the next census taken, which will be done in June 1880.

Going East.

Preparation for a trip east, by a Las Vegas man, usually occupies three or four weeks. And when the day for his departure arrives it is deferred until to-morrow and to-morrow, until to-morrow's developments into weeks and weeks sometimes into a long fortnight. The average Las Vegas man is wholly given to business and he has his hands full.

The journey is not so monotonous now as under the old bull train system, when there was not a rail of iron west of Kansas City, but time perhaps, is somewhat enhanced in value. Besides this, it is characteristic of the New Mexican to move slow but sure. It takes him fully four weeks to do New York after he gets there. He sits upon the stoop of the Astor House and looks down with pity upon Broadway, but disdains to join in the general, Pel Mell. After purchasing all the paper in easy reach, partially to get the news and partially to patronize the juvenile salesman, who is thinly clad; after having his boots blocked at one place and his beard shaved at another he presents himself at a wholesale house, when he shown all the favors of a ready cash customer. He has plenty of that which speaks all languages called by some people dinero, by others gelt, and by still others the others the ready John Hancock, which Lord Byron has poetically denominated "embroidered cash." He ties the elevated railroad, samples the street cars, looks at Central Park, sees the Theater, hears Tammany and Beecher and then weary of all, sighs for New Mexico.

Preparations for the next European war, the outbreak of which seems rapidly becoming more imminent, would appear now to be conducted under the guise of neutralizing efforts. Thus, as will be seen from cablegrams Germany has discovered that the French fortress of Belfort must be neutralized; and, to neutralize it, is constructing an immense fortified camp at New Biersack, near the left bank of the Rhine. So the work of exhausting the resources of the people in men and money continues, and, under the burdens of the immense armaments maintained and constantly being increased, the question underlying all European politics is coming to. Which of the great powers will first break down under the weight of its own military establishment.—Inter Ocean.

The latest society intelligence in royal circles, which comes by cable dispatch, is to the effect that it is rumored a matrimonial alliance is being arranged between Thomas Prince of Savoy and brother of the Queen of Italy, and the daughter of the Crown Prince of Germany. In due course of time, should the rumor prove well founded, the society Jenkins who receives admittance to the select circle of crowned heads will of course favor us with a description of the bride's trousseau, and of the costumes of the distinguished guests present at the wedding. Then the world may breathe easier again.

Ward H. Lamon, the biographer of Abraham Lincoln, says: From boyhood Lincoln had a presentiment and firm belief that he should be President of the United States. He also had a presentiment that he should die a violent death. What is still more singular, his wife, from the first, entertained the same belief that he would be President of the United States. She said: "He's going to be President, and that's the reason I married him, for you know he isn't pretty."

It appears to be the intention of Secretary Sherman to add to the present inflation by purchases of bonds, throwing some \$1,000,000

per month on the market and thus in reality increasing the price of the bonds he is buying in. He evidently believes in selling when prices are low and buying when they are high.

Result in New York.

New York, November 10.—The Sun this morning publishes revised returns from many counties in the state, which show the following results: Potter, democrat, lieutenant governor, 2,931 majority; Mackin, democrat, treasurer, 1,202 majority; Horatio Seymour, Jr., democrat, engineer and surveyor, 9,749 majority; Carr, republican, secretary of state, 673 majority; Ward, republican, attorney general, 2,645 majority, and Wadsworth, republican, comptroller, 3,095 majority. The Sun adds that it has been impossible to get the exact figures from several counties and from the closeness of some of the results it is plain that the official canvass alone can determine who are elected.

From the most authoritative returns, which can be had, it at present appears that the state officers of New York, have been chosen from both parties and are about equally divided. The Gods seems to have been very cruel in allowing the election to go in the manner it did. Neither party can absorb any presidential nutriment from the result. Leaving out the office of Governor, which should not be counted on account of the personal quarrel between Kelley and Tilden, and the remaining six state offices are equally divided between the Republican and Democratic parties.

The official returns in Iowa give John H. Gear, republican, for governor, 157,571; for H. H. Trimble, democrat; 87,057; for Daniel Campbell, greenbacker, 45,429; for the Rev. Dungan; prohibitionist, 3,258. This makes the total vote of the state cast 281,315. Governor Gear's majority over 72,405; over Daniel Campbell, greenbacker, 111,454; and his majority over all is 23,808. Lieutenant Governor Campbell's vote is considerably larger than that cast for governor, and probably makes his majority in the neighborhood of 27,000.

Philadelphia, Nov. 7.—The official returns from all the counties in the state give Butler, republican, for state treasurer, a majority over all candidates of 58,675.

Lincoln, Nov. 5.—Election returns come in slow. The indications are that Cobbs Republican candidate for Supreme Judge is elected over Wakely, Democrat, by 12,000 majority. Gannett and Carson Republican Regents of the University, are elected. The total vote of the State will reach 60,000.

The Republican county tickets are generally successful. The Greenbackers make a very small showing.

Omaha, Nov. 4.—No reliable returns received at writing from the State. Prominent politicians estimate the Republican majority at from 10,000 to 11,000.

An Appeal for Aid for the Poor.

London, Nov. 8.—The Catholic bishops of Ireland have adopted resolutions appealing to the government and to all public bodies and private individuals to help the poor, as the poor law act is insufficient to meet the necessities of the impending crisis.

FINANCIAL.

Bank of England.

London, Nov. 6.—The bullion in the Bank of England decreased £909,000 the past week. The proportion of the bank's reserve to its liability is 4 per cent. The discount rate is fixed at 3 per cent.

BANK OF FRANCE.

Paris, Nov. 6.—The specie in the Bank of France decreased 6,150,000 francs the past week.

ARRIVAL OF GOLD.

New York, Nov. 6.—The steamship France, from Havre, brought \$873,000 in gold.

The S. C. & M. Co. have been ordered to take a heavy freight train on Saturday of last week. Seventeen cars and the cabooses went down. There were seven stockmen from Malvern, Iowa and two brakemen who went down with the cars. Three of the stockmen were killed and three badly mangled, one could not be found. The cars were loaded with cattle and hogs.

The men at work in the Chicago stock yards quit work last week and received an advance of 25 per cent on their wages before the would agree to return to work.

Slowly the bridge is building over the Gallinas.

The fact that both the English and Russian missions are still vacant and no inconvenience results, revives the agitation about the advisability of abolishing the whole diplomatic service, and thus save about \$1,060,000. A member of congress from one of the southern states has prepared a bill, which he will introduce upon reassembling of congress, cutting down the salaries of all foreign missions about twenty-five per cent. His idea is to make the salaries ridiculously small, and then abolish altogether. The saving to the treasury by the temporary vacancy of the English and Russian missions is about \$3,000 monthly.—Brooklyn Bulletin.

PROPOSALS.

FOR CROSS-TIES.

COLORADO SPRINGS, COLORADO, October 25, 1879.

Sealed proposals will be received at the office of the undersigned until noon, November 15th, 1879, for furnishing one hundred and sixty thousand (160,000) cross ties for the graded road bed of the Denver & Rio Grande Railway between Alamosa and the New Mexico State line, said ties to be of good sound spruce or pine timber; the dimensions to be six (6) inches thick, not less than six (6) inches face, and six and one-half (6½) feet long. Bidders will specify whether they propose to deliver along the graded road bed or along the line of the constructed road between Veta Pass and Alamosa, and in the latter case at what station. Payments in cash on monthly estimates. Forms of proposal and contract can be had upon application to the undersigned. A sufficient indemnifying bond will be required in each case. R. F. WEITBRECK, Treasurer.

COLORADO SPRINGS, COLORADO, October 29, 1879.

Sealed proposals will be received at the office of the undersigned until noon, December 20, 1879, for the grading of the San Juan Extension of the Denver & Rio Grande Railway from a point on the San Juan river near the mouth of the Piedras to the Animas river, a distance of about 18 miles. The profile specifications and form of bid can be seen at the office of J. A. McMurtrie, Chief Engineer, South Pueblo, Colorado, on and after December 15, 1879. Payments to be made monthly in cash on the estimate of the engineer in charge of the work, and within twenty days after the close of each month. Contractors are requested to examine the line before bidding. A suitable indemnifying bond will be required in each case. 12-20. R. F. WEITBRECK, Treasurer.

COLORADO SPRINGS, COLORADO, October 31, 1879.

Sealed proposals will be received at the office of the undersigned until noon, December 10, 1879, for the grading of the New Mexico extension of the Denver and Rio Grande Railway, from a point near the town of Conejos, to the crossing of the Rio Grande river, near Cieneguilla, a distance of about 57 miles. The profile, specifications, and form of bid can be seen at the office of J. A. McMurtrie, Chief Engineer, South Pueblo, Colorado, on and after November 30, 1879. Payments to be made monthly in cash on the estimate of the engineer in charge of the work, and within twenty days after the close of each month. Contractors are requested to examine the line before bidding. A suitable indemnifying bond will be required in each case. 12-19. R. F. WEITBRECK, Treasurer.

COLORADO SPRINGS, COLORADO.

October 29, 1879.

Sealed proposals will be received at the office of the undersigned until noon, November 29, 1879, for furnishing six hundred and forty thousand (640,000) cross ties for the graded road bed of the Denver & Rio Grande Railway between the junction of the San Juan and New Mexico lines near Conejos and the Animas river, a distance of about one hundred and sixty miles; said ties to be of good sound spruce or pine timber; the dimensions six (6) inches thick, not less than six (6) inches face, and six and one-half (6½) feet long. Bidders will specify where they propose to deliver. Payments in cash on monthly estimates. Forms of proposal and contract can be had upon application to the undersigned. A sufficient indemnifying bond will be required in each case. 11-20. R. F. WEITBRECK, Treasurer.
